Summary

• JavaScript (HTML, CSS, React. Have also had some experience with Vue, Typescript, Next.js, Node.js)
• Java (Spring, Tomcat, Hibernate)
• PHP (had some experience with Yii1)
• additional knowledges: Git, MySQL, transact-SQL, Terraform, Webpack, REST, Tailwind CSS
• English: upper intermediate, Polish: pre-intermediate, Italian: pre-intermediate

Experience

Full Stack Developer
Freelance, Self Employment
Jan 2023 - Present (1 year 1 month)
As a self-employed web-developer I successfully completed numerous small projects, most of which required knowledge of the JavaScript language and the React library. I have also worked with the following technologies: Next.js, Node.js, TypeScript and Tailwind CSS. I tackled various tasks, from interface optimization and creating tools that assist businesses to API integration and developing adaptive interfaces.

Skills: Webpack · Amazon Web Services (AWS) · Tailwind CSS · Terraform · React · JavaScript · Node.js

Professional Development
IBA Group
Dec 2020 - Jan 2023 (2 years 2 months)
At the IBA Institute (Institute of IT & Business Administration) I was participating in a 2-year postgraduate conversion program for managerial staff and specialists with higher education, specializing in "Software Design of Information Systems". I graduated with a degree in computer science. The topic of my diploma project was: "Organization of interaction with patients of a medical clinic and its software support".

The following languages and technologies were used: Java (Spring Boot framework + Hibernate framework), JavaScript (React framework), HTML/CSS, MySQL.

Full Stack Engineer
Freelance, Self Employment
Oct 2018 - Oct 2020 (2 years 1 month)
Over these years I had a long-term project with a consistent client that helped me to evolve from an intern to a person who handles 80% of the tickets by myself, without the help of the team leader. With experience, I've become a key player in front-end and back-end development. Features implemented: weekly reports on donations, integration with the PayPal API, including recurring payments, functionality

for several types of users (principals, teachers, admins, bookkeepers, parents, students), scheduled emails across 6 time zones, implementation of CRON-jobs for sending weekly newsletters and for logging activities and errors and much more.

Technologies used: PHP 5 (Yii), JavaScript (jQuery), PayPal API, MySQL.

Markup Engineer
Belrezerv LLC
Feb 2013 - Dec 2016 (3 years 11 months)
Management of profiles for companies hosted on the all-biz platform: working with the admin panel, adding companies to the database, listing products and services in the catalog, posting news and press releases from info partners (all the markups: layout, texts, links, images, tables, videos), design (creating backgrounds and headers for the profiles, uploading logos, working in Photoshop), site moderation (services, products, news, company information, geolocation, gallery).
Also was working with texts (proofreading, editing, formatting), tables (creating and editing price lists), and images (cropping, collage-making, retouching, online searching).

Education

IBA Group
Postgraduate Conversion Courses, Computer Science
2021 - 2023
At the IBA Institute (Institute of IT & Business Administration), I underwent a 2-years' conversion program for managerial staff and specialists with higher education, specializing in "Software Design of Information Systems". I graduated with a degree in computer science. The topic of my diploma project was: "Organization of interaction with patients of a medical clinic and its software support".

The following languages and technologies were used: Java (Spring Boot framework + Hibernate framework), JavaScript (React framework), HTML/CSS, MySQL.

Belarusian State Pedagogical University Named after Maxim Tank (BSPU)
Bachelor's Degree, Philology
2005 - 2010

Licenses & Certifications

Linux administration basics - Центр повышения квалификации руководящих работников и специалистов в области ИТ
2238884

Information Systems Analysis and Design - IBA Group
